

Online Learning: Monday 11th January 2021

Years 1 & 2

Today, we'd like you to watch the story of 'Toys in Space' by Mini Grey, <https://www.youtube.com/watch?v=ivex8zdOBMs> about a boy who leaves his toys outside at night and for the very first time they see the starry sky in all its terrifying glory.

1. Hootopize has lost his favourite toy called cuddles. Have you ever lost your favourite toy? How did you feel? Can you pretend you have lost your favourite toy and create a lost poster? Remember to include their name, what kind of toy it is and what it looks like.
2. The toys see a shadow when they first arrive on the spaceship. How are shadows formed? Can you make a shadow with your toys? Investigate what happens to shadows as objects move closer to the light source.
3. The toys, at the beginning of the story, are all lying on the floor looking up at the beautiful night sky and see all the stars shining brightly. Can you draw a starry night picture? We have put a picture at the bottom to give you an idea but we are sure yours will be much better.
4. The toys all float to the ground holding onto a balloon. Can you pretend to jump out of the plane and float carefully to the ground? You could start in a sky diver pose and create a floating dance.
5. In searching for his Cuddles, the Hootopize kidnaps toys that don't belong to him. The toys explain to the alien that the toys should be returned to their real homes. Why is stealing wrong? Can you give a reason?

Remember to send photographs of you and your work to your teachers via email:
